

## Swag Labs

### Shopping Cart Module

**Title:** Verify Cart Item Quantity Can Be Updated

**Description:** User Can't update the quantity of any item

**Steps to Reproduce:**

1. Navigate to <https://www.saucedemo.com/>
2. Enter username 'standard\_user'
3. Enter password "secret\_sauce"
4. Click on "Login" button
5. On the Products page, add an item to the cart (e.g., "Sauce Labs Backpack").
6. Navigate to the Cart page by clicking the cart icon in the header.
7. Locate the item in the cart and find the Quantity field (expected behavior: an editable input or +/- buttons should exist).
8. Update the item quantity from 1 to 2.
9. Check if the cart auto-updates.
10. Observe the item subtotal and overall cart total.
11. Try reducing the quantity back to 1.
12. Attempt to input invalid values (e.g., 0, -1, or non-numeric characters).

**Expected Result:**

Cart updates item subtotal and total correctly when quantity is changed, allowing only valid positive values.

**Actual Result:**

The application provides no option to update item quantity in the cart.

**Environment:** Chrome.

**Severity:** High.

**Priority:** High.

---

**Title:** Wrong product details displayed when clicking on Backpack item

**Description:** The Shopping Cart icon in the top header and the Checkout button on the Cart Page are misaligned and not positioned according to standard UI design guidelines. After adding an item to the cart and navigating to the Cart Page, the Shopping Cart icon appears visually inconsistent with the surrounding header elements.

**Steps to Reproduce:**

1. Navigate to <https://www.saucedemo.com/>
2. Enter username 'problem\_user'
3. Enter password "secret\_sauce"
4. Click on "Login" button
5. On the Products page, add an item to the cart (e.g., "Sauce Labs Backpack").
6. Navigate to the Cart page by clicking the cart icon in the header.

**Expected Result:**

The product details page for Sauce Labs Backpack should be displayed, showing the backpack image, description, and price \$29.99.

**Actual Result:**

The product details page for a different item (Sauce Labs Fleece Jacket, \$49.99) is displayed instead of the backpack.

**Environment:** Chrome.

**Severity:** High.

**Priority:** High.

**Title:** User is able to proceed to checkout with an empty cart

**Description:** The system allows users to proceed to the checkout process even when the shopping cart is empty. This behavior bypasses expected validation and results in an incorrect checkout flow.

**Steps to Reproduce:**

1. Log in to Swag Labs.
2. Navigate to the **Cart Page** without adding any products.
3. Observe that the cart is empty (no items listed under QTY/Description).
4. Click on the **Checkout** button.

**Actual Result:**

The system allows the user to proceed to the **Checkout Information Page** even though the cart is empty.

**Expected Result:**

The system should **not** allow checkout with an empty cart.

A clear validation message should be displayed to inform the user that checkout is not allowed when the cart is empty.

**Environment:** Chrome.

**Severity:** High.

**Priority:** Medium.
