Bug_001:

Title: Incorrect UI error message displayed when entering invalid data.

Description: At login page, when I enter wrong password with valid username and click enter, it showed error message not full appear and with emoji description not visual and contain that the both of username and password is wrong not only the password.

Steps:

- 1.Open URL: <https://www.saucedemo.com/v1/index.html>
- 2.Enter "stan5dard_user" in the username field
- 3.Enter "user" in the password field
- 4.Click "Login"

Expected Result:

Login unsuccessful with a clear error message

Actual Result:

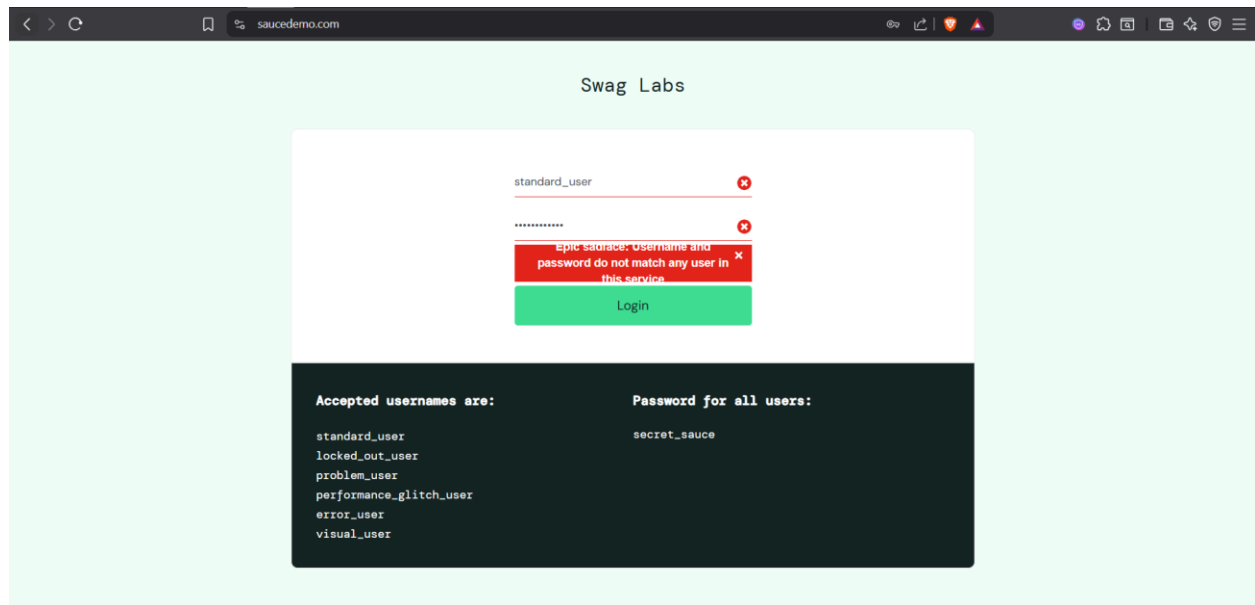

Error displayed: *"Epic sadface: Username and password do not match any user in this service"* with poor UI and missing emoji.

Environment: Chrome

Severity: Low

Priority: Low

- 3- Enter "" at password field
- 4- click ""Login"" button"

Expected Result:

Error message: *"Username and password are required"*

Actual Result:

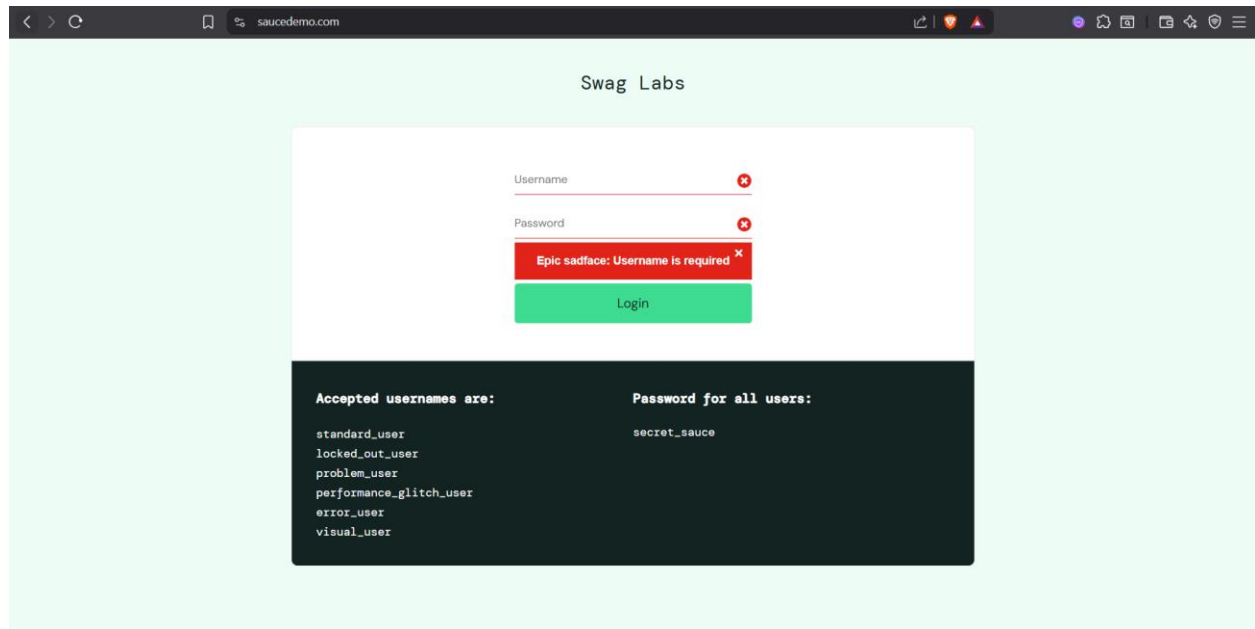

System show error message that contain "Epic sadface: Username is required"

Environment: Chrome

Severity: Medium

Priority: Medium

Attachment:

The screenshot shows a web browser window with the address bar displaying "saucedemo.com". The page title is "Swag Labs". The login form contains two input fields: "Username" and "Password". Both fields have a red error icon (a circle with an 'x') to their right. Below the "Password" field, a red error message box is displayed with the text "Epic sadface: Username is required" and a small 'x' icon. Below the error message is a green "Login" button. At the bottom of the page, there is a dark grey box containing two columns of text: "Accepted usernames are:" followed by a list of usernames, and "Password for all users:" followed by the password "secret_sauce".
